APPLICATION FOR DLL STUDENT TEAM LEADERS

Digital Learners to Leaders (DLL) is an annual program with its 1st pilot during the Spring of 2018. DLL will offer digital literacy training through student led teams to create solutions for the challenges facing urban communities. DLL will offer you the opportunity to explore real challenges posed by Atlanta’s education, business, government and non-profit community. You will grow your digital skills and develop your portfolio through workshops, online activities, mobile makerspaces, summer camps, and internships. We offer you the support and guidance with exposure to a diverse group of technology professionals while at the same time inspiring you to new and exciting levels of academic achievement, extracurricular involvement, and leadership development.

The Digital Learners to Leaders program gives you an unique and exciting opportunity to demonstrate to future employers your skillsets in both digitization and Internet of Things. Participating in DLL will set you apart and set you up for academic and interpersonal success. Throughout the program, you will:

- Develop strong leadership and academic skills
- Create new friendships and build networks.
- Increase your exposure to emerging technologies
- Network with top Atlanta businesses
- Enhance your Digital Portfolio
- Strengthen collaborative and management skills

QUALIFICATIONS FOR STUDENT TEAM LEADERS:

- Currently enrolled Georgia State University undergraduate student, including Perimeter College, seeking two-year or four-year degree (minimum half-time)
- Graduating fall semester of 2018 or after
- Good Academic Standing
- Ability to work effectively both independently and as part of a team
- Ability to lead a student team
- Ability to problem solve and research solutions
- Must be able to communicate effectively through written and oral communication
- Must be interested in gaining digital literacy/technical skills
- All Majors accepted
SKILLS DESIRED FOR TEAM LEADERS:

- Complex Problem Solving
- Critical Thinking
- People Management Skills
